U.S. Offers North Korea Conditions for Better Ties

By Don Oberdorfer Washington Post Service
WASHINGTON — The United States has informed North Korea that it is prepared to take major steps to improve relations if the North-South talks are resumed on the peninsula and if Pyongyang agrees to take part in next year's

Otympic Games, according to State Department officials.

The U.S. initiative, which has been discussed on a confidential basis with South Korea, the Soviet Union, China and Japan, was presented to North Korea through the Chinese government last month, the officials said.

This unannounced message from Washington quickly followed its unilateral move of a limited but more open sort: permission for U.S. diplomats to hold substantive conversations with North Koreans at receptions and other "neutral"

The conditional U.S. willingness to improve relations with North Korea was broached to South Korean officials in November by Gaston J. Sigur Jr., the assistant secretary of state for East Asian and Pacific affairs, according to official

When Seoul raised no objection after long internal deliberations. the U.S. position was conveyed to the Chinese during Secretary of State George P. Shultz's visit to

Beijing last month. About a week later, a high-ranking official of the Chinese Communist Party, Zhu Liang, made a visit to Pyongyang that is believed to have been related to the U.S. mitiative. On Monday, North Korea proposed the resumption of the North-South talks at the prime minister level.

Pope Calls For Chile Dialogue

Political Parties Agree to Abide By 4 Principles

By Juan de Onis

SANTIAGO - Pope John Paul II, embarking on a personal effort to reconcile Chile's bitterly divided political parties, persuaded the par-ty leaders to agree Friday to a set of principles for future action in re-

turning the country to democracy. A Vatican spokesman said the four principles, which the leaders had accepted in writing, were the rejection of violence, dialogue as the method for resolving conflicts, ethical practices in relations between the parties and respect for

the Christian majority in Chile. Leaders of all the nation's parties, from the rightist National Renovation to the Communists, were to meet with the pope-

[Chilean police fired tear gas and used water cannon to quell disturbances during a beatification Mass said by the pope before nearly a million people Friday, according to witnesses cited by Reuters in Santiago. The gas drifted toward the rostrum where the pope was officiating, and priests put handker-chiefs to their faces for protection.

The witnesses said police moved to disperse youths who had hurled stones and set bonfires on the fringes of the crowd. Some people in the crowd chanted "assas-sin." in apparent reference to Presi-

dent Augusto Pinochet.] During his public appearances. the pope has triggered massive ex-pression of opposition to the Chilean military, which has ruled the country since a military coup in

While ordering Chile's clergy not to identify the church with any party or temporal ideology, John Paul as said the church must play a role in protecting human rights, including political freedom, and promot-

g social and economic reforms. Prior to the pope's visit to Chile, his first, the military government imposed several measures that are supposed to contribute to a return to democracy.

The measures included a law permitting the legalization of political parties, which have been banned since the overthrow of Allende, an elected Marxist, While en route to Santiago, the pope said Chile was "presently a dictatortransition.

record for a jewelry sale. The to-tal included the 10-percent buy-

At the end of the second day of bidding on Friday, Sotheby's announced that the grand total of the two-day sale was more than 75.4 million Swiss francs, or \$50.3 million. Sotheby's had estimated earlier that the entire sale would bring 11 million Swiss francs. The sale of the sumptuous jew-

els took place before audiences on two continents. They invested laughter, applause and some exuberant shouts as well, as the items were bought by bidders in heated The sale seemed in keeping

with the case society display they had made of their marriage, which had forced King Edward

VIII to abdicate his throne in More than 300 of their

bejeweled possessions, from dia-monds to swords and buttons and sealing wax stamps, were on the block. Ninety-five lots were sold; the remaining pieces were auc-When hidding resumed Friday,

a 14-karat gold and aquamarine compact by Verdura, with an esti-mated value of 4,400 Swiss francs, was sold for 250,000 Swiss

The night seemed entirely a seller's market. Marvin Mitchel-

son, the Los Angeles divorce lawyer, bought a gold, turquoise, am ethyst and diamond bib necklace for 907,500 Swiss france in memory of his mother.

Elizabeth Taylor telephoned from her Los Angeles home to buy a diamond clip in the shape of the plumes and crown of the Prince of Wales. It cost her 935,000 Swiss francs. The actress said it was worth it because of the friendship with the duke and duchess that she had shared with Richard Burton.

The sale in the lake-front tent set up at the Hotel Beau-Rivage by Sothehy's auction house was attended by a thousand invited hidders. A thousand more competitors participated in New York via satellite television.

The sale proceeds are to go to the Pasteur Institute in Paris, the medical research center, at the request of the duchess, who died

Behind Reagan's Plea to Senate, a Gamble That Didn't Pay Off

By David Hoffman and Lou Cannon

Washington Post Service WASHINGTON - When President Ronald Reagan arrived in his Oval Office on Thursday, he was given a bleak report by his advisers on prospects for sustaining his veto of the highway and mass transit bill. His chief of staff, Howard H. Baker Jr., and Mr. Baker's deputy, Kenneth M. Duberstein, said victory was virtually impossible.

But Mr. Reagan wanted to make a final personal appeal to the Senate, according to Republican sources. Mr. Baker and Mr. Duberstein did not try to dissuade the president from his last-minute gamble, a visit with Republican senators to whom he said, "I beg you for your vote."

The president took the risk for reasons that went beyond the bill, White House officials said. He was seeking to repair his stature after the Iran-contra affair and demonstrate dramatically that he would not spend the remainder of his presidency in retreat, they said.

The state of the s

president, Look, you know, it is not certain that we can do this thing." And quick as a whip, he turned to me and said: 'Howard, it doesn't make any difference." "

On the Road to U.S. Cultural Literacy, 4,500 Stepping-Stones

SAN FRANCISCO — A scholar has unveiled a list of 4,500 names, phrases, places, books, events and phenomena that he says every liter-

ate American should know. The list starts with 1066 - date of the Battle of Hastings -- and ends with Zurich. In between is everything from Greek and Roman gods to Huckleberry Finn, Rube Goldberg and Three Mile Island.

Ronald Reagan is there, sandwiched between "read the riot act" and "realism." Also on the list are Jimmy Carter, Richard M. Nixon, Gerald R. Ford and Spiro T. Agnew. Lee A. Iacocca and the Reverend Jesse L. Jackson made it. Walter F. Mondale and Gary Hart did

E.D. Hirsch Jr., a professor of English at the University of Virginia who released the list Thursday at an Education Writers Association convention, said he was neither "advocating a list of great books that every child in the land should be forced to read" nor seeking a national curriculum.

His aim, he said, is to spark "radical changes in textbooks" to ensure that every student graduates

SAN FRANCISCO - Here are 50 of the 4.500 words, names and phrases from the cultural lit-

The roster also includes the word "nuclear" followed by "family, "free zone," "power" and "five other words," and the word "Remember" followed by "Pearl Harbor!" the Alamo!" and "the Manne!"

WORLD BRIEFS

Libya Bombs Jets Left Behind in Chad

NDJAMENA, Chad (AP) - Libyan air raids have destroyed the damaged about half the Soviet-made aircraft the Libyan Army abandoned when it was driven out of the military base as Quadi Doum, a senior French officer reported Friday.

The officer said Libyan planes have steadily bombarded Onadi Doum because much of the estimated \$500 million worth of Soviet-made eaponry Libya left behind is new and has not been studied in the West. Chadian staff officers said that Libyan Tupolev bombers based in the Khoufra casis attacked throughout the day Friday, keeping at high altitudes to avoid Chadian massiles. In Paris, the French defense minister, Andre Girand, confirmed the heavy Libyan bombing of Quadi Doum and warned that it could lead to an intervention of French forces north of the 16th parallel, a region that Libya controls.

Lawyer Denies Link to Israeli Spying

WASHINGTON (WP) — An American lawyer suspected of playing a role in the Jonathan Jay Pollard spy affair said that Mr. Pollard may have used his Washington apartment without his knowledge, but that he "had."

Harold Katz, in a statement from his home near Tel Aviv, said Thursday that the Israeli government would not allow him to be ques-tioned in the United States because he has handled "sensitive" matters as no part in the Pollard operation." an adviser to the Israeli Defense Ministry. Responding to newspaper reports, Mr. Katz, 65, who holds both U.S. and Israeli citizenship, said: "I passed no money to the Pollards or to anyone on their behalf. I neither retrieved nor handled any documents."

According to the newspaper reports, U.S. investigators believe that Mr. Katz was involved in channeling Israeli payments to Mr. Pollard.

Head of Peru's Air Force Is Dismissed

LIMA (Reuters) - President Alan García Pèrez has dismissed the Peruvian Air Force commander, Lieutenant General Luis Abram Cavellerino, two days after signing into law a bill to reorganize the military.

A presidential communique Thursday night said that Mr. Garcia had exercised his constitutional role as supreme chief of the armed forces in exercised his constitutional role as supreme chief-of the armed forces in ordering General Abram into early retirement. It gave no reason for the measure; but said the president acted with the backing of his cabinet. The dismissal of General Abram followed what some military analysts said was tension between the president and navy and air force members over the drafting of the Defense Ministry reorganization bill. The law lays the groundwork for merging the ministries of War, Navy and Air Force and joint chiefs of staff under the command of a single Defense Ministry.

Finnish Center-Left Coalition Resigns

HELSINKI (AFP) - President Mauno Koivisto of Finland asked the Social Democratic prime minister, Kalevi Sorsa, on Friday to head a caretaker government after the center-left coalition submitted its resigna-

The resignation of the cabinet followed a general election March 15 and 16 in which the opposition conservatives, out of power for more than 20 years, increased their seats and became the second biggest party in Parliament, behind the Social Democrats.

In addition to the Social Democrats, the outgoing government included the Center Party; the Swedish People's Party, a minority language party; and the Finnish Rural Party, the biggest loser in the electional party; President Koivisto will begin moves to form a new government Monday when he meets with the newly elected speaker of Parliament, Ilkica Suominen, who also heads the National Coalition Party, the conservative grouping, and leaders of all other parliamentary groups.

For the Record

The War Ministry represents the army.

The U.S. Senate confirmed the nominations of two career foreign service officers as ambassadors to Barma and Malaysia on Thursday. Approved on voice votes were Burton Levin of Maryland as ambassador to Burms and John Cameron Monjo of Maryland as ambassador to

A former defense secretary, Donald H. Ramsfeld, took himself out of the 1988 Republican presidential race Thursday, citing the high cost and uncertainty of a "long-shot" campaign. Mr. Rumsfeld, 54, was elected to four terms in the House from Illinois and had served in posts in the Nixon A piece of a failed Affas-Centaur rocker's more cone, found by investiga-

tors, shows evidence of a lightning strike as a cause of the rocket's failure on March 26, a NASA official said Friday in Cape Canaveral, Florida. The rocket veered out of control 52 seconds after it was launched in a thunderstorm and exploded.

TRAVEL UPDATE

Airine impections for haldine cracks in older DC-10 jumbo jets have announced Friday. The order, which applies to planes with more than 40,000 hours of flight or more than 12,000 landings, follows a warning by the plane's manufacturer, McDonnell Douglas Corp., that cracks had been discovered in the tails of two DC-10a.

In France, an Undeclared Duel Portuguese Government Mitterrand, Chirac Quietly Try to Score Political Points

By Julian Nundy

PARIS - When Jacques Chirac met with Ronald Reagan to discuss arms control, a letter on the subject Trom François Mitterrand preceded him to the White House.

When the French prime minister was due to appear on television for a long-scheduled interview, the French president made late arrangements to speak 30 minutes before on the 30th anniversary of the founding of the European

Four days later, as Mr. Chirac took off for a visit to the United States, Mr. Mitterrand appeared for 90 minutes on television to discuss current events.

And, while the Ganllist prime minister opened talks in New York and Washington, the Socialist president jostled him for time on the television news programs by plung-ing into crowds during a tour in the Jura mountains bordering Switzer-

Mr. Chirac was stressing the two leaders' agreement on foreign po-licy and defense matters, but Mr. Mitterrand was pointing up their differences on domestic policy.

For Mr. Mitterrand, the week's activities were a departure from his normally restrained and aloof style. The news that he had written to Mr. Reagan in advance of Mr. Chirac's visit reinforced an impression that the French president was determined not to let Mr. Chirac hog the limelight.

On the face of it, Mr. Mitterrand had few personal motives to make public appearances. He repeated Sunday that he did not intend to run for re-election in May

However, during his provincial tour, Mr. Mitterrand sounded much like a candidate and made it clear where his differences with the cesses in their policies. Those who

came in for albeit qualified praise continuing a strategy of picking included the hard-line Gaullist inconservative government lay. government not to tamper with the ists. national health insurance system, which the French call social securi-

Just over a week before the Contof Labor, or CGT, had drawn a good results and has worked." crowd estimated at nearly 200,000 to demonstrate against reducing

health insurance benefits. Last year, the average French citizen spent 7,260 francs (about \$1,200) on his health, most of it reimbursed by the state, leaving a

social security deficit of 20.9 billion These figures and fears that the elderly will soon outnumber all other categories of the population complicating the payment of retirement pensions have prompted the

government to seek solutions that

are due to be finalized in June. Among measures already taken are the reduction of payment for certain kinds of medicines. And claims for reimbursement now have to be franked whereas earlier they were mailed without cost. Both these measures are seen as hurting the unemployed and the retired more than any other part of

On television on Sunday, Mr. Mitterrand acknowledged that the system needed some adjustment. But on his tour, he cautioned against radical change.

"We have to save social security," he said, "but it is not as endangered as some say."

While Mr. Mitterrand does not In two opinion polls published hesitate to discuss his differences this week, Mr. Chirac started tors detect a softer line in criticism

than a few months ago. On Sunday, for example, he paid But the president retained the edge

on issues where public feeling is terior minister, Charles Pasqua, for apparently strong he warned the recent arrests of suspected terror-

Denis Baudouin, Mr. Chirac's spokesman, welcomed the president's statements on Thursday and concluded that Mr. Mitterrand had munist-led General Confederation shown "that cohabitation can bring

Many commentators say that the president's strategy appears to be aimed at improving Mr. Chirac's image with a recipe of limited praise to undercut the prime minister's main rival on the right, Raymond Barre, of the center-right Union for French Democracy.

gal into the European Community 15 months ago. Mr. Barre, who has been rated consistently high in opinion polls, is the most prominent opponent of France's left-right power-sharing

ciates of Mr. Mitterrand say that by 134 votes to 108 with one abthe president almost certainly has not yet decided whether to run for a second term next year. And he is faces the difficult task of resolving unlikely to make up his mind until shortly before the campaign opens. Mr. Mitterrand, they say, be-lieves that Mr. Barre could be difficult to beat but that Mr. Chirac

would be an easier opponent. It would, therefore, be in his interests to see Mr. Chirac become the right's single candidate in the second and final round of the presidential election, which is expected to be held on May 8, 1988.

If this really is Mr. Mitterrand's intention, then his plan may be reaping dividends.

won popularity by leading the country out of a deep recession, is pressing for an early election. Polls mark for the first time since Octo-Party, currently holding 88 of the 250 assembly seats, could come close to clinching a majority. ber, narrowing Mr. Barre's lead.

"Any solution other than an e election would be a fraud," he

But the Democratic Renewal for Mr. Eanes when he ended two terms as president last year, has called on the Socialists to lead a leftist coalition to replace the government in power for 18 months. Mr. Soares must choose between

two options that could reproduce the current stalemate: an it coalition of two parties fighting for the same political ground or an election in which the Social Democrats may again fall short of an A Drummer's Drummer absolute majority.

The former Socialist leader and

former prime minister repeatedly has expressed his opposition to an early poll in a country where successive crises have stunted economic growth.

A leftist coalition, however, would have to rely on the support of the hard-line Communists to survive. Mr. Soares, who led a stand against a Communist bid for power following the 1974 revolu-tion, is opposed to allowing the pro-Soviet party influence in gov-

Cities in the arid Southwest now exceed many in the North and East in pollen counts. Tucson, Arizona, has twice the na-tional rate of respiratory aller-gies, The New York Times reports. The picture is much the same in Phoenix, Arizona; Palm

Springs, California, and Santa Fe, New Mexico.

The allergy problem is just one of the by-products of the rapid, uncontrolled growth of the Southwest, where millions of newcomers have brought what they came to escape: air pollu-tion; traffic congestion, crime, and now, The Times notes,

clogged nasal passages.

Part of the problem is imported plants. Mulberry and olive. trees and Bernmda grass, nonna-tive but widely planted in the region, are notorious pollen-producers. Another is imported people: Nine of every 10 persons in Tucson migrated there, and about half of those came for health reasons, such as allergies. Allergists now discourage pa-tients from moving to the Southwest. "If a doctor sends a person to Arizona," said Dr. Jacob L. Pinnas of the University of Arizona Health Sciences Center, it means the patient "has either

home health care.

The shortage has been worsened by tighter controls on hos-pital stays imposed by the feder-al government, insurers and employers, with the result that only the sickest patients are allowed to stay in hospitals. You can't get by with one nurse for six patients when they're serious-ly ill," said Dindy Weinstein, director of the District of Columbia Health Care Coalition.

Short Takes The number of blacks holding station positions in the federal government has dropped dra-matically during the Reagan years, government data show. Of the approximately 450 positions filled by presidential appointment and subject to Senate con-

tunities for nurses in related pro- | firmation, 44 were held by blacks fessions such as insurance and in 1980, the last full year of the home health care. 20 were held by blacks. Administration officials note that, among other things, it has not been easy to find conservative Republicans among blacks, who identify far more frequently with the Demo-

cratic Party.

U.S. justice cost an average \$191 per person in 1985 for local, state and federal police, prisons and courts, according to the Justice Department, compared to \$1:377 for every man, woman and child for social insurance payments, \$1,209 for national defense, \$862 for education, \$723 for interest on the national debt, \$397 for public welfare, and \$267 for hospitals and health. Space research cost \$31 per capita, the study showed.

Picking the Wrong Fight

It was a mistake for President Reagan to It would be generous to call this strategy veto the highway bill - and a bigger one to a miscalculation. Fighting transportation insist that his presidency depended on Con-gress's sustaining the veto. On Thursday, the historical standards, especially when bil-Senate joined the House in overriding, hang-ing presidential prestige out to dry. The test cal calculation. Mr. Reagan enlarged the of power was unwise and unnecessary. It leaves Mr. Reagan and his handlers to walk Hill to try to sway errant Republicans. their words back to political reality and to ponder new sources of presidential power.

On the merits, the veto was wrong. The five-year, \$88 billion highway and mass transit bill, for all its faults, is essential to the national economy. Congress dawdled but produced a package that did more to meet the nation's transportation needs than the administration's proposal — by \$10 billion. As usual, the lawmakers threw in some \$150 million worth of "pork" per year

to grease the legislative wheels.
As Senator Daniel Patrick Moynihan, who helped shepherd the bill through Congress, noted, there were 152 such "public works" compared with over 15,000 transportation projects countrywide. Yet Mr. Reagan chose to make his stand against this pork.

wound by arriving unexpectedly on Capitol He might have had in mind President Truman's historic veto battles with the Re-

publican-controlled Congress of 1947 and 1948. Embattled himself, Truman used the veto to assert national interests over narrow political interests. But in the case of the 1987 transportation bill, Congress had more national interests on its side.

Though its political judgments on the transportation bill do not augur well, the Reagan administration is not over. The nation maintains an abiding interest in a functioning presidency. Its real tests ought to be the central issues of the budget and arms control. President Reagan, more than anyone, ought to know how little he can now afford to squander.

- THE NEW YORK TIMES.

It Was Too Easy to Spy

bassy in Moscow are under arrest. Two are accused of repeatedly letting Soviet spies comb through secret facilities; a third is being held on suspicion of lying about contacts with Soviet women. It is the latest in a series of security disasters suffered mostly at Soviet hands, and it leaves many people wondering what could have gone so wrong.

The pair accused in the violation of the

embassy are a sergeant and a corporal who seem to have fallen into a classic KGB trap. one baited by young women employed at that time in embassy service jobs. The third, a staff sergeant, was second in command of the marine contingent at the embassy.

The procedures intended to review contacts between guards and Soviet employees and to safeguard embassy premises were not faithfully applied or were fairly easily circonvented. The investigations in progress should provide more precise answers.

It is hard not to ask, however, whether there is some kind of generic carelessness at work. Suspect or, at the least, vulnerable people were assigned sensitive jobs and, worse, not checked out properly or checked on routinely. The building materials for the new embassy in Moscow were given over to Soviet possession for long periods during which they were seeded with bugs. For years the embassy depended on foreign nationals in service positions; their employ-ment was terminated last year not by Amer-

Three marines who guarded the U.S. Em- ican officials tightening security but by Soviet officials retaliating against a reduction of the numbers they were being allowed to keep in the United States.

Among a Walker and a Kampiles and a Lonetree and Bracy there runs a common thread. These are not master spies einding a careful net, or being caught in one. They are unexceptional people who merely found it easy and profitable to break the rules. The two marines were arrested only when one of them, keeping up his KGB contacts at his next post, turned bimself in.

This does not mean that there are no high fliers for whom the counterintelligence net must be set very fine. It does suggest that there is something lacking in the ordinary bureaucratic screening — in the procedures meant to deter or pick up the little people or in the seriousness of those who admi those procedures. It is widely noted that the latest crop of spies and spy suspects are, on the face of it, money grubbers and people of confused values, not, in their fashion, peo-ple of ideals. This observation prompts much fretting about the deterioration of the American character. To the extent that this is true, however, it should make it easier to track derelictions: a task for computers and accountants. An examination of values has its place in counterintelligence, and so does an examination of bank accounts. On both levels, better answers must be found.

- THE WASHINGTON POST.

Campaign Misfunding

The present system of congressional that reform will never turn the money off, campaign finance is the low-grade infection of American politics. Left to itself, it will we ourselves once held, the only reform that only get worse. Congressional campaign does not create more problems than it spending has risen nearly fourfold in the solves is the sunshine of disclosure. Thus past 10 years; the cost of television time has been the driving force. The price of a House seat is now \$300,000 - that is what an average winner can expect to spend - broad-based, mostly small, buy much less while a Senate seat costs \$3 million. These with their money than is co averages include the no-contests; the serious races cost much more. The political calendar is a succession of dollar signs. No subject more preoccupies the members than the raising of these sums.

Increasingly, political action committees
— the giving arms of interest groups — are where they turn. There were 600 of these the last time campaign finance was reformed in 1974; there are 4,100 now. They gave \$140 million in the last election cycle, nearly a third of the total spent. Their true penetration was even greater than that. The PACs, like other givers, tend to give most to incumbents. More than a third of House members got more than half their campaign funds from these committees last cycle. The propensity to give is in some cases greater even than the ability to spend. Many incumbents are able to carry so much money from one campaign to the next that they scare off their challengers. Who wants to start off half a million dollars behind?

The PACs have a greater claim on the attention, if not the allegiance, of Congress than is healthy for either Congress or the country. It is time to weaken the link. A major bill to do so is now pending in the Senate. Its sponsors are David Boren and Majority Leader Robert Byrd; they have 42 cosponsors. Only two are Republicans, a sign of difficulty ahead. But the Democrats are a weighty array. They include not just the usual reformers and the leadership, but such established figures as John Stennis, who sees the integrity of the Senate at stake.

The bill would limit the total contributions that any House or Senate candidate could accept from PACs in an election cycle. Then for Senate candidates only (deferring to the House to legislate for itself), the bill offers a partial alternative to PAC funds in the form of public financing. A general-election candidate could qualify by raising a threshold amount of private money, mostly from his home state and in small contributions. He would then be eligible for public funds up to a spending ceiling by which he would also agree to abide.

There are lots of arguments about this approach, which is already used in presidential elections. The general argument is

opponents say that:

• PACs are not as sinister as they are made out to be. On the contrary, they are posed, tend to cancel one another out and in any case are healthy examples of citizens seeking to influence their government.

• The money will seep in, like water into the basement. Limit direct PAC contributions and, yes, members of Congress and interest groups will spend less time on their knees, but you will also encourage indirect

expenditures, destroying accountability.

• Limit total spending (which the Sopreme Court has said you can do only in return for public funds), and you will actually help incumbents more than challengers, who need to spend more to get known. (To which a partial reply may be: 98 per-cent of House incumbents seeking re-elec-tion last year won. Which challenger wouldn't like a better deal than that?)

· Limit spending, and you will also cheat Republicans, who now have a fund-raising advantage and, moreover, raise the money the right way -- in small amounts from many contributors. Only a Democrat would want to do that. (But much of the Republican advantage is in money raised and spent by the party, which the bill would not affect.)

There are other issues; they all need to be openly met. Neither party can be expected to be blind to the partisan implications of a bill that goes to the engine room of politics like this. But if either tries to turn this promising legislation into a simple search for partisan advantage it will deservedly fail. It is equally doomed if, at the other extreme, the goal becomes somehow to sanitize congressional politics. That vision is a dangerous mirage. The American system presumes strong interest groups, even thrives on them; they neither can nor should be quashed, and the price of trying will always be too high. The goal here is not

squeaky cleanliness, but moderation.

The Boren-Byrd bill is not a perfect answer. By all means, amend it. But it offers a starting point. Those who would kill it have the heavy burden of suggesting a credible alternative. The PACs have too large a role in the current system; they pay too much of the piper. For its own sake if no other, Congress needs - now, in 1987 - to shift the balance in the least objectionable way. - THE WASHINGTON POST.

OPINION

A Soft Landing From the Cold War Can Be Arranged.

A USTIN, Texas — I believe a peaceful tran-sition from the Cold War to a new relationship between the superpowers, one in which no single power seeks to dominate, is possible. It is possible because forces are at work that in time may make an end to the Cold War logical and safe for leaders of both countries.

An exit from the Cold War should be viewed as a protracted process, carried forward by steps that permit each side to feel confident. With its unsettling mixture of grandiose objectives, chicanery and transparent propaganda, Reykjavik will remain a model of how not to proceed.

What would a working agenda for ending the Cold War look like? Initial understandings would have to be reached in three critical areas.

The first would, of course, be the nuclear arms race. Here three conditions would have to be satisfied: a thoroughly inspected U.S.-U.S.S.R. nuclear balance sufficient to guarantee, at lower overall force levels, secure secondstrike capabilities but no capacity for nuclear blackmail; agreements on nuclear force ceilings with other nuclear weapons powers; and, against this background, a drive to implement more firmly the Nonproliferation Treaty. The path of wisdom may alter as we learn more; but would be skeptical of solutions that eliminated nuclear weapons, wholly relied on the Strate-gic Defense Initiative or eliminated elements of SDI as part of stable deterrent systems. Evidently, problems of immense complexity are embedded in these conditions, even under circumstances of maximum good will.

The second area would be a reorganization of

NATO and the Warsaw Pact in ways that allowed an increased scope for national politi-cal freedom in Eastern Europe and guaranteed agreed force levels, securely inspected, for residual NATO and Warsaw Pact forces.

The most complex issue certain to arise is the degree and character of German unity. But the objective can be simply stated: The U.S.S.R. would have to decide to accept a balance of power rather than a hegemonic solution to its legitimate security interest in Eastern Europe, a solution guaranteeing that no other major power dominates Eastern Europe, rather than Soviet domination of the region. On this proposition, basic U.S. and Soviet interests overlap.

Finally, the third condition: the settlement of regional conflicts with a Cold War dimension and the development of new longer-run rules of the game. In the short run, intimate Soviet ties to Hanoi, Havana and Kabul might provide the By W.W. Rostow

basis for settlements in which the existing goverament would remain but would be effectively confined within its own borders without the presence of external military forces.

But, clearly, no guarantees can be given to Moscow or Washington regarding the longterm political orientation of the countries concerned. (As this is written, the Soviet Union appears to be experimenting with a resolution of this type in Afghanistan; its terms do not

appear consistent with prompt success.)

This would work only if the United States and the U.S.S.R. agreed that henceforth they would live with outcomes determined by strictly local historical forces — a difficult condition to live with given habits built up over the past 40 years. The Middle East would, of course, be extremely difficult to sort out in these terms, given the limited powers of the United States and the U.S.S.R. in the region. But, as elsewhere, those powers would be formidable if rooted in a joint conviction that the Cold War was no longer a sensible framework for the conduct of U.S.-U.S.S.R. relations or the superpowers' respective relations with others.

In all cases, U.S.-U.S.S.R. understandings would be basic to a successful outcome, but the interests of many other states would be involved. Negotiations would therefore be complex. Moreover, the outcome would be stable only if new common rules were established and validated by successful experience. But once the expectation was established that all were engaged in transforming the Cold War into something more desirable, the process might

move forward quite briskly.

I am reasonably confident that this kind of scenario of how the Cold War might end is realistic in that it conforms to historical forces likely to persist and gather strength. My uncertainty, however, is serious and comes to rest on two critical questions: One concerns the U.S.R., the other the United States.

It is easy to take the view that the Soviet

leadership, by some combination of Russian history, Communist doctrine and institutional vested interest, is and will remain so deeply committed to indefinite expansion that only defeat in bloody war could bring about a reso-lution of the Cold War — that is, the emergence

of a Soviet Union which, like other latecomers would come to accept fully that hegemony was beyond its grasp and that its primary task was to look after more conventional national interests in an increasingly complex, multipolar, world by encouraging balance.

At the moment, one cannot help feeling that the viability of Soviet domestic rule hinges rather more on the progress of the economy than on the continued expansion of Soviet power. But Russia is unlikely to be exempted by history from the slow-working but stubborn and rising insistence of human beings on politi-cal systems that provide dignity and increasing

degrees of human freedom. This brings me to the second uncertainty: Is the United States, as a society, capable of a reasonably steady military and foreign policy?

We have oscillated since 1945 between evasive sions and feverish, belated efforts to halt or roll back Soviet expansionist initiatives launched to exploit those intervals of American myopia. Our survival by periodic, belated, con-vulsive exertion has exacted great costs and imposed great risks on humanity in a nuclear age. After 40 years of cyclical behavior the leaders of both political parties ought to be able to unite on the need for a steady, long-term

military and foreign policy.

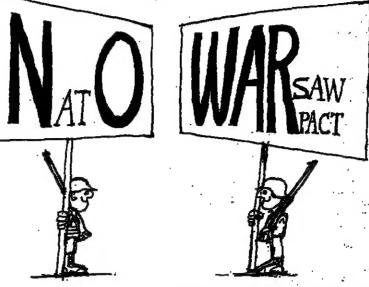

It is still to be demonstrated that American society and its political process will make the necessary outlays for education and research. necessary outlays for education and research, find a new generation of entrepreneurs and otherwise accept the discipline and flexibility that the age of the new technologies demands.

Thus a soft landing from the Cold War is an American as well as a Soviet responsibility; for seady America, strong but not aggressive, paying its way in the world, conscious of the reality of its own interests as well as the legitimate.

of its own interests as well as the legitimate interests of others, can help make the transition easier and more secure for the Soviet leadership. An America that again slides into distracted complacency or continues to borrow rather than devate productivity to sustain its amenities could set in motion yet another Cold War cycle with potentially tragic results. The outcome might be an extension of areas of chaos, includ-

The writer, national security adviser to President Johnson, teaches political economy at the University of Texas. This article was excerpted from the forthcoming issue of Foreign Affairs.

ing nuclear proliferation, beyond the capacity of either Moscow or Washington to control.

As the Pillars of Postwar Stability Shake, Europe Looks for Shelter

By Dominique Moïsi

PARIS — Is the postwar system in Europe coming to an end? If not, it certainly is at a turning point, a time of rapid evolution. Since 1945, European stability has rested on four conditions: nuclear deterrence, America's parantee over Western Europe, the immutability of Communist rule in the Soviet Union, and the subsequent equation made between Europe's division and its stability. Today all these conditions are facing challenges.

Nuclear deterrence has been attacked by technology and ideology, a combination of SDI and pacifism. At Reykjavik, the Reagan administration gave the impression, to the dis-may of Paris and London, that it had joined the Soviet Union in the "revisionist" camp seeking a world be-

The "zero option" to do away with Euromissiles has brought the U.S. guarantee over Western Europe unon on both sides of Atlantic. In this context, the American debate on withdrawing some or all U.S. troops from Western Europe is all the more disquieting. Whereas similar pressures in the early 1970s came from a public weary of foreign involvement, today's pressures come from an American elite that envisages a better use of U.S. troops in more troubled areas while playing down Europe's importance.

The immutability of the Soviet sys tem is challenged by Mikhail Gorbachev himself. His talk and actions have resuscitated Western hopes, and fears, of a thawing of the Soviet system, with all its consequences for a stable European order. If the Soviet Union were truly to change, would the Eastern bloc follow? Could all of this transcend Yalta?

None of these questions are new. What is new is that they should arise simultaneously. It is as if the pillars

phrase "deliver a baby."

of a stable and familiar world were about to crumble at the same time. Europeans who care for the comfortable status quo have the unpleasant feeling of being squeezed and left uncovered, caught between Mikhail Gorbachev's seduction and Ronald

Reagan's incoherence.
Mr. Gorbachev's deft combination of reform at home and imaginative diplomacy abroad has crystallized European ambiguities. In their reactions to his latest proposal on Euro-missiles or in their debates on the possibility for reform within the Soviet system, the Europeans reveal their inner divisions - their deep attachment to stability or their profound yearning for change. Sometimes both

are present, as in the German case. neath a pretended manimity, each European country has had to struggle to reconcile conflicting priorities. France and West Germany have

deeply divergent visions of the world. France at heart is a status quo power, West Germany belongs to the revisionist camp. Divisions that were evident between the two countries when the Americans launched their pro-posals for a space-based defense have come more subtle but deeper after the latest Soviet initiatives.

The prospect of a denuclearized world casts a different light in Paris and Bonn. The Kremlin's increasingly dynamic arms control policy and matter are perceived in Paris as challenging not only France's security but identity thanks to a new generation of its self-image as well, given the close link in France between independence, security and an absolute reliance on miclear deterrance.

In West Germany, the generally positive reply to Mr. Gorbachev's proposals corresponds to deep hopes for an alteration of one of the bases

questions about whether an evolving

French-German core, a Britain that has been discovering its European technocrats and politicians; an Italy which, through economic success and relative political stability, has begun to take itself seriously, and a Spain which, though a lateopmer to the Enropean Community, seems to want to make up for lost time.

To answer Mr. Gorbachev, Western on which European stability — but implication. Only then can it control status — has rested. Germany's template the inevitable end of the postwar order with screenty.

a stable and interdependent world. in its development. More and more governments are adopting marketfailed experimentation with central al major African economies, thus planning. More and more are seeing virtue, not neocolonial conspiracy, in family planning. And more and more are recognizing the fundamental threat posed by the rapid degradation of the African environment.

U.S. assistance, both official and rivate, has helped to make this possible. But the reduction in U.S. foreign sid to Africa during the past two years could not have been more ill-timed. Having enabled several African nations to break with the past, America is failing to help them through what is bound to be a difficult and prolonged transition to the point where most can sustain development with

internally generated resources.
Just as Americans had the opportumity in the late 1940s to choose between two Europes, so now there is a choice to make between two Africas - an Africa consigned to the ash heap of history, certain to be a perennial charge to international relief, an incu-bator of political unrest and a dangerous vacuum for East-West confrontation, or an economically competitive and politically stable Africa, one that

is a growing market for U.S. goods. This is not a choice that can be postponed. The cost of helping Africs to assume its proper place in the world grows exponentially every year. Yet deferring that investment, as Congress appears prepared to do, also carries a high price. Consider the possible impact on

the U.S. economy. There are many

American companies, small and large, that might engage in trade and investment in Africa if its economic It has reached a crucial threshold infrastructure and conditions were better developed. U.S. foreign assistance programs have begun visibly to economic policies in place of alter the policy environment of severopening the way to expanded trade and investment ties with American firms, which in turn means jobs.

It is in Americans' clear self-interest to have a healthy, productive and stable Africa. The Marshall Plan concopt is as appropriate and urgent today, for Africa, as it was for postwar Europe 40 years ago.

The writer is bishop of the Episcopai diocese of Washington and chairman of Africare, a development group. He contributed this to The Washington Post.

LETTER

No Exodus From Berlin

I was surprised to see Dimitri Simes state with such certainty in his March 17 opinion column that removing the Berlin Wall would cause an exodes of East Germans to the West. East Germans to the West.

East Germans are well informed of

economic realities in the Federal Republic, including the 2.4 million people without jobs. Further, freedom can be taxing for a person used to total "guidance" from Father State." Finally, there is no such thing as "West German citizenship." The law recognizes only German citizenship, to which all persons of German origin living in the 1937 geographic houndaries of Germany are entitled.

way is coming into remarkable favor with travellers to and from the Far East, owing to the great saving in time resulting from the use of this overland route. During 1910 — the figures for last year have not yet been published — 5.022 passengers took through tickets between European

1937: Stalin's Ballot Plan

PARIS — [A Herald editorial says:]
Nothing in recent years has so stirred Soviet Russia as the new Stalin Constitution." And nothing in that Constitution seems to promise such farreaching consequences as "the secret ballot." The Soviet press is full of articles reflecting the measures of the Communist bureaucrats at the prospect thus opened for the alections next May. Elections to party hitherto have been conducted by public voting. The party antionity presiding at a meeting would propose a panel ticket, ask if anyone present opposed, and declare the entire list declare the candidates elected. For the new elections, Moscow insists on the server ballot and, in preparation, a mackless criticism of the party apparatus throughout the land. Regarding the

Trade Deal With Japan Could Threaten Bases, Australia Warns U.S.

By Michael Richardson ernational Herald Tribune

CANBERRA - Foreign Minis ter Bill Hayden has warned that if the United States and Japan settle the United States and Japan sente their trade dispute at the expense of other countries the Australian pub-ic might demand the closing of

U.S. military bases.

The bases, which are run jointly with Australia, are links in a global chain of U.S. military communications and electronic intelligence stations. They enable the United States to mositor Soviet compliance with arms control agreem and provide early warning of the

Jaunching nuclear ballistic missiles.
In an interview on Thursday,
Mr. Hayden said that the closing of the joint facilities would rupture the longstanding ANZUS mutual defense treaty between the United States and Australia. The U.S. obligation to New Zealand under the treaty was suspended last year because New Zealand does not allow nuclear-powered ships to dock. The closing of the facilities in Australia would also weaken the network of alliances and security arrangements in the Asia-Pacific

ufactured items to Japan.
In beef exports to Japan, Australia has consistently lost market share to the United States. Its share of total Japanese beef imports has fallen from 9.4 percent in 1972 to almost half that now.

Japanese officials have attributed this decline to consumer preference. Australian officials contend it reflects a decision by Japan to placate the United States.

John Dawkins, the Australian trade minister, said Wednesday in Parliament that if Australia was unable to maintain its exports to America and Japan, its two main trading partners, it could not con-tinue large-scale purchases of mili-tary equipment from the United

A British Mystery: Deaths in the Defense Industry

By Warren Gerler nal Herald Tribune

LONDON — Saying there is "no evidence of any link at this stage" in the recent deaths of three scientists and the disappearance of a fourth, all of whom were doing defense-related work, British offi-cials have rejected a parliamentary appeal for a government investigation.

Each of the scientists was performing defense-related work that, according to industry sources, appears to have involved computer software programs designed to guide or intercept projectiles, both under-

The Ministry of Defense rejected Thursday an appeal by John Cartwright, defense spokesman for the centrist Liberal-Social Democratic alliance, for an investigation into the affair. It said that such an inquiry was neither "desirable or necessary at this

But Lord Trefgarne, Britain's minister of state for defense procurement, said he was keeping "under review" the possibility of links between the deaths, which were all apparent suicides, of three young scientists and the disappearance of a fourth. In a letter to Mr. Cartwright on Thurs-

day, Lord Trefgame said there was "no evidence of any link at this stage."
On Monday, David Sands, 37, a computer expert at a subsidiary of the British defense contractor Marconi Co. Ltd. ap-parently killed himself by driving a car laden with gasoline cans into an aban-

doned building in Surrey. A police investi-gation into his death began Friday. Mr. Sands is believed to have been working on a defense-related project involving computer-controlled radar. His wife said recently that he had been in a distressed state several days before his death, which followed the apparent suicides last year of

two other Marconi employees.

Marconi is a subsidiary of Britain's General Electric Co., which recently lost out to Boeing Corp. of the United States in an effort to provide Britain with an airborne early warning system. In August 1986, Vimal Dajibhai, 24, a

programmer with Marconi Underwater Systems, died after apparently jumping from a suspension bridge in Bristol, a port west of London.

Mr. Dajibhai monitored on-board computer guidance systems for the company's Tigerfish heavy-weight torpedo, according to company sources.

A month later, Ashhad Sharif, 26, a computer expert with Marconi Defense Systems, died in a car near Bristol. Mr. Shariff reportedly killed himself by press-ing the car's accelerator while a rope was around his neck and attached to a tree.

And Avtar Singh Gida, a Loughborough University researcher who was studying underwater acoustics, disappeared in January. His disappearance is under police

In a recent letter to the Defense Ministry, Mr. Cartwright, of the Liberal-Social Democratic alliance, wrote: "I think the circumstances of these four cases and the possible connections between them stretch the possibility of a mere coincidence too far. All four of these men seem to have had no good reason to take their own lives, or in Mr. Singh-Gida's case, to disappear." "All four scientists," the letter contin-

ued, "were working on research that has potentially important defense implica-tions. Mr. Dajibhai, Mr. Shariff and Mr. Singh-Gida were all working on aspects of underwater vibration simulation which has extensive implications for the Strategic De-fense Initiative. I understand that Mr. Sands was also involved in SDI-related

The Strategic Defense Initiative is the Reagan administration's proposed space-based anti-missile system, which will depend heavily on computer programs that can guide and track movement in space. There has been speculation that U.K.-based research on underwater vibration simulation is being applied as a model for tracking movement of projectiles in space.

But a Marconi spokesman said Friday: None of the three Marconi scientists, all of whom were junior employees, worked on an SDI project. They all worked at separate locations, for separate Marconi

Lord Trefgarne said in his letter that none of the projects undertaken by the four scientists "were interrelated or connected with the Strategic Defense Initiative."

A Defense Ministry official said that Easams, the company where Mr. Sands had been employed, had been subcontract-ed by the ministry to work on an SDI project that involved "work on battle-manment command control" and communication systems. The official said the project involved computer planning in overcoming ballistic missile threats to Western Europe.

partment over the issue of security at the embassy in Moscow, said that the report had helped persuade Mr. Reagan to approve a plan to reduce the number of Soviet employees in the embassy, but that it prompted few appreciable changes n security procedures.

The 1985 report was prepared by the president's Foreign Intelligence Advisory Board, a group of private citizens who conduct independent reviews of intelligence issues.

A source familiar with the board's work said Thursday that H. Ross Perot, the Texas billionaire, resigned from the panel early in 1985 because the government had failed to heed the recommendations about the Moscow embassy.

The source said that at one of the board's bearings, a State Department official had said that it would be too expensive to replace the Soviet employees of the embassy with Americans. Mr. Perot replied that he would be willing to pay for it out of his own pocket, the source said. Mr. Perot declined comment.

According to the source, the report by the advisory board said the 200 Soviet nationals then employed at the embassy were a security threat.

been reached at any other time. The Marion, Sotheby's U.S. chairman, first-day total was 50.26 million seated on the podium here. Bidders were also in the Beau-Rivage's Brunswick salon and its restaurant, the Chat Botte, linked to the marquee by closed-circuit television, And there were telephone bidders from all over the world. By the time the session reached

Lot 13, a diamond clip lorgnette signed by Van Cleef and Arpels of New York, and made around 1935, mental effervescence reached boiling point. That item went for 176,000 Swiss francs, 20 times the high estimate. By Lot 15, a diamond dress suite by Cartier of Lon-don, also made around 1935, which sold for 660,000 Swiss francs, nearly 38 times the highest estimate, it became clear that New York, which started bidding in huge leaps — in one case from 85,000 to 140,000 Swiss francs - would take the lead on all the pieces directly linked to the love affair of the duke and the

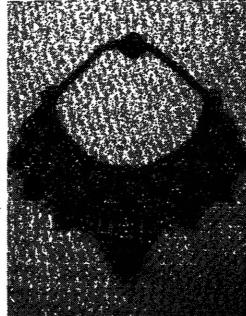

This particular suite carried various inscriptions, including the date of Mrs. Simpson's birthday, and a sentimental phrase, "Hold tight,"

Sotheby's had clearly underestimated the power of both feminine and masculine fantasizing - quite a few women past their prime youth, sitting near dignified men well into their more mature years, appeared to be significant factors in the bidding. Sotheby's likewise underestimated the impact of royal or pseudo-royal myths in the Unit-

just a Hollywoodian buying spree. Cartier, which is trying to bolster its collection of early Cartier jewel-ry (and cells it the "Cartier Museum,") as part of a sophisticated publicity gambit, was the buyer of a panther clip for 1.54 million Swiss francs, just over \$1 million. Laurence Graff of London, per-

hans the most astute of diamond and colored stone dealers, acquired the emerald engagement ring for 3.19 million Swiss francs, a world record price per carat for any colored stone. And the \$3.15 million diamond ring went to a Japanese diamond dealer backed up by the

solid commodities into which paper money made overnight on the stock exchange can be converted. Anything obvious now draws an instant response when supported In the case of jewelry, this may be a semi-royal connection.

Or it can mean the signatures of Impressionist masters, whose names, thanks to a spate of exhibitions and books, ring a bell even for those without undue exposure to art. For the last 18 months, less than average quality paintings have been selling like hotcakes -- Monet Yet the sale was far from being landscapes too late for their style. Renoir portraits of red-faced women with sausage-shaped bodies.

This week the trend has reached unprecedented proportions. It was particularly noticeable in Sotheby's sale Tuesday in London of Impressionist and modern paintings. One would be hard put to find a portrait executed more shoddily than the "Chapeau Epingle" by Renoir. The 27-by-23-centimeter (about 10½by-9-inch) sketch in a lace hat seen sideways bears the only the remotest resemblance to Renoir's famous monotype of that same title. The price of £264,400 is exorbitant. A pastel of "Russian Dancers"

three girls look distorted, their pos- Impressionist work in the Pointiltures are clumsy to the point of being grotesque. This did not stop the spoof-like piece from soaring to £308,000. Another pastel of two dancers with legs that look like pink sticks made a staggering £627.000.

As even the worst of Impression-

list manner gets a big push. In Christie's Monday sale, "La Mer-Clapotante" by Henri Edmond Cross, a conventional view of the Mediterranean coast with a boat on a choppy sea went up to £209,000. "Le Pont à Saint Andéol," dated 1926, is no more than an academic landscape handled in the

Pointillist technique. The picture, £24.75 million paid for van Gogh's vinch looks like a poster done for a "Sunflowers" must be assessed

de itself felt as never be-Christie's chairman and a brilliant audience that a Japanese colleague glish salesroom procedure. The impact was particularly

day and Wednesday, where Japa-nese buyers got more than 21 percent in value of the pictures sold. Some of the most conventional spes and portraits carrying famous signatures seemed to have irresistible appeal. An indifferent Monet river landscape at sunset painted in 1883 almost doubled its ighest estimate at £484,000. A Renoir portrait of a young woman that could be useful to advertise lipstick was even more astonishing at £581,000.

Most remarkable was the readiness of the Japanese to venture into new territory. The underbidder on record for the artist. So did a portrait by Egon Schiele, again done in a decorative manner. That too rose to £1.76 million. Compared with these, the great works sold this week do not seem as wildly priced

Herald Eribune.

April 13: An important date for investors in funds.

That's the day that the Spring Funds survey appears in the International Herald Tribune's monthly Personal Investing section, now in its third year of coverage of this vital area of investment.

Twice a year, Personal Investing devotes an entire issue to a global view of the funds industry, providing crucial information on performance rankings, new products and transaction costs.

The April 13 issue will offer the kind of information that sophisticated fund investors need to shape their strategy in the months to come.

> The International Herald Tribune Bringing the world's most important news to the world's most important audience.

Turner's Late Temple

John Kusscu New York Times Service

ONDON - As of Monday, visitors to the Tate Gallery will at last be able to enjoy the J.M.W. Turner bequest to the British nation as he meant them to - in a and devoted entirely to his work. That this should be done was a condition of the bequest, which was made in 1851 and consisted of 19,331 works of art.

Designed by James Stirling, the ed architect of the Neue Staatsgalerie in Stuttgart. West Germany, the new building con-sists of a long series of galleries for oil paintings, and a dimly lit gallery for the watercolors in which Turner excelled. Upstairs are study galleries, in which paintings of less immediate importance are hung. At street level there are an auditorium and a students' room in which Turner's sketchbooks and other naterial can be seen.

Turner (1775-1851) is widely regarded as the greatest English painter. In his art, he was all things in one — poet, philosopher, historian, storyteller, keeper of the national conscience and master of sea and sky, wind and weather. A connoisseur of catastrophe, he was ever ready to record the look of an avalanche, a shipwreck or a great fire on land. But he was also a man

also had a keen perception of the hare running in front of it. state of the world in his own time. In his early 30s, he made a distinct In his earl

Will Prime Increase Cure The Fed's Lower Buck Pain?

By LEONARD SILK New York Times Service

T EW YORK - Citibank's decision this week to raise its prime interest rate by one-quarter point, to 7.75 percent — a move quickly followed by other major banks — took Wall Street by surprise. While the banks argued that their cost of money had increased, Leonard Santow, a partner in Griggs & Santow, a financial consulting concern, said, "I think if you look at the numbers on the economy, inflation or loan demand, nothing that has happened so far should have induced them to move on the prime."

The actual trigger appears to have been Brazil's suspension of interest payments on \$68 billion of its debt to commercial banks

and the decision of several banks to "take a hit" against earnings by putting their Brazilian loans on nonaccrual status. The dollar's renewed fall against the yen last week and this also played a

"The Fed is not unhappy over the rise in the prime," said one economist.

The first five major banks to declare their Brazilian loans as delinquent were BankAmerica, Manufacturers Hanover, J.P. Morgan, Chemical New York and Mellon. The debt in question

totals about \$6 billion, and the banks' combined reductions in first-quarter earnings will come to about \$100 billion.
Cinibank, whose loans to Brazil total \$4.6 billion, has not yet declared the loans as delinquent. In mid-March, however, it said it was considering taking such action and estimated that the cost to its earnings would be \$50 million in the first quarter and \$190

million for the year. The timing of Citibank's increase in the prime also appears related to the fact that, as Mr. Santow puts it, "the dollar was in the tank" -- falling sharply. In those circumstances, he suggest Citibank would encounter little or no criticism from the U.S. Treasury secretary, James A. Baker 3d, or the Federal Reserve chairman, Paul A. Volcker, who were suddenly confronted with the need to defend the sinking dollar.

UGENE Birnbaum, a New York financial consultant, sees the flap over the dollar as one of Mr. Baker's own making. The secretary's remark on British television last week that the dollar had no fixed target appears to have provoked conjecture that the meeting of six major industrial nations in Paris, which was aimed at stabilizing the dollar, was a failure. Further, Mr. Birnbaum said, "Washington thought it was dealing with a very limited item" in imposing tariffs on Japan for

its alleged dumping of computer microchips, but was "staggered by the marker's reaction." He called the American move "a wonderful example of how we can give ourselves a black eye." Some Fed watchers even thought the central bank had subtly encouraged Citibank to raise the prime.

As Henry Kaufman of Salomon Brothers sees it, the Fed is in a straitiscket, fearing to push rates upward lest it cause the economy to slide into recession and fearing to move rates lower lest it further weaken the dollar.

James J. O'Leary, economic consultant to U.S. Trust Co., said the Fed was in a "very dangerous position," indeed the most dangerous he can remember for many years. If by inaction the Fed should contribute to the "psychology of accepting inflation," he said, the Japanese and other major holders of dollars might their money away from commitments in government and corporate bonds, driving up long-term interest rates. Mr. O'Leary already finds evidence that this is happening.

"The Fed is not unhappy over the rise in the prime," he added. The stock market has also taken the increase in stride, seeing it as

a necessary means of arresting the dollar's decline.

But the interest-rate hike is worrying some economists who fear that it will add downward pressure on the economy by hurting consumer spending on autos, homes and other big-ticket ems and by deterring t new plant and equipment.

IMF Talks To Center On Debt

Agenda Includes Grain Proposal

WASHINGTON - A deteriorating world economy will occupy finance ministers and central bankers from the International Monethey open a five-day meeting here on Monday, sources said.

Key items on the agenda are likely to include a long-standing U.S. debt initiative and a French proposal to ship grain to the world's

The annual talks, involving the International Monetary Fund in-terim committee and the IMF/ World Bank Development Committee, will also cover issues ranging from the impact of develop-ment loans on the environment to weak commodity prices.

Sources said there was growing uncertainty about the vitality of the world economy and whether heavi-ly indebted nations could carry their financial burdens without

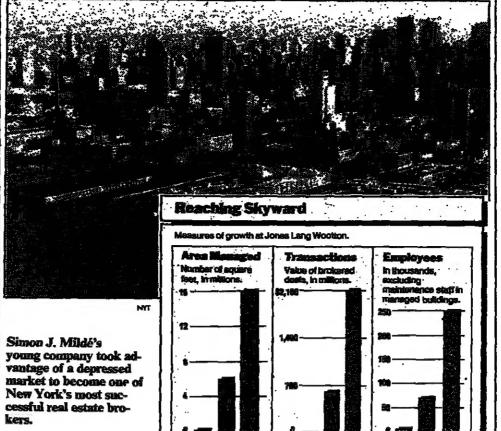

The sources said they saw no signs of any new debt initiative such as the one that the U.S. treasury secretary, James A. Baker 3d, unveiled 18 months ago.

That strategy, calling for new lending to help indebted countries so they can meet their commitments, has since drawn a serious challenge from Brazil. The Third World's most indebted nation recently declared an interest-payment moratorium on \$68 billion of commercial bank debt.

Separately, French Prime Minis ter Jacques Chirac, in a recent visit to Washington, sounded out the administration on a plan to funnel worldwide grain surpluses to the poorest states.

A Reagan administration official eid. "There's interest on the part of some countries for looking at the support of the special problems of the very poorest countries, because their position is so extreme."

He suggested that the United States was open to discussing the

Forging a N.Y. Real Estate Bonanza Foreign Capital, Bold Strategy Help Lock Up Market

By Albert Scardino New York Times Service NEW YORK - Simon J. Mildé came to the United States

from England in 1976 with a few hundred thousand dollars, not much of it his. In the following decade, he made himself, his partners and his real estate company, Jones Lang Wootton, very rich by brokering and managing billions of dollars worth of New

York property. Mr. Mildé has helped to transform the most local of New York businesses, real estate, into an international exchange that has attracted the assets of wave after wave of foreign investors. "First, in the 1960s, it was the

British," said Mr. Milde. "Then came the Germans and the Dutch. Then the Arabs arrived in the 1970s, along with the Canadians. After that, we had the Chi-

nese, and last year it was the Japanese." This year, he said, it is the Australians who are buying New York office buildings, and

U.S. Jobless Rate Fell 0.1 Point in **March**, to 6.6%

WASHINGTON — U.S. civilian unemployment edged down 0.1 percentage point in March, to 6.6 percent, the lowest rate in seven years, as a decline in the labor force more than commenced for a clear. more than compensated for a slowdown in job creation, the Labor Department said Friday.

The civilian rate had been at 6.7 percent for three previous months. But the number of new nonfarm, or civilian, jobs increased by 165,000, less than most analysts expected. And the department said that the number of civilian jobs grew in February by just 236,000, down 101,000 from the 337,000

earlier reported. Those figures, coupled with last month's downward revision, by 129,000, in the number of new civilian jobs in January, led some analysts to conclude that the economy s weaker than had been thought.

An estimated 111.4 million civilians held jobs in March, 14,000 fewer than in February, while the number of unemployed dipped by 113,000 to 7.9 million, the Labor Department said. It was the first time the number of unemployed had fallen below 7.9 million since April 1980. The number of jobless had hov-

ered around 8 million for the previous three months. The jobless rate has not risen since September.

In a related survey, the Labor Department said that the number of "discouraged workers" - people who want a job but have given up the hunt in the belief they cannot find one — jumped sharply in the first three months of 1987. A total of 1.25 million people were in the "discouraged" pool, compared with 89,000 in the last three months of 1986 and 86,000 in the first quar-

ter of 1986. Manufacturing employment de-clined by 24,000 in March, the department said. Construction em- less than factory jobs.

ployment fell by 47,000. "In March, as winter recedes and good weather sets in, employment generally increases," Janet Norwood, commissioner of the Bureau of Labor Statistics, told the congressional Joint Economic Com-

Unemployment Dipped 3% in West Germany

BONN - West German un employment fell 3 percent to 2.412 million people, or 9.6 per-cent of the work force, in March from February, the Federal Laoor Office said Friday.

The office said that the downward trend of unemployment was "markedly slower compared with the normal change at this time of year, and blamed an extended winter a slower rate of investment in capital goods and the restruc-

turing of mines and steel mills. The number fell by 75,400 on an unadjusted basis, and com-pared with 10 percent of the work force in February. The total fell by 1 percent from March last year, when the unemploy-ment rate was 9.8 percent.

On a seasonally adjusted basis, unemployment totaled 2.22 million people, which was 1.7 percent more than in February 1987 but 3 percent less than in March 1986.

"After seasonal adjustment, however, nearly 70,000 jobs were lost in the goods-producing sec-tor," she said. "The seasonal gains in construction may have been dampened in March because of improvement earlier in the year."

Of the newly created jobs, about 35,000 were in retail trade, while 73,000 were in health and business services. Many of the newly created service jobs are unskilled and pay

"We are seeing a very slow rate of improvement," said Donald Ratajczak, director of economic forecasting at Georgia State University. We are not going to get a big surge of activity.

(UPI, Reuters, AP)

Tokyo Offers Companies Compromise on Phones

Compiled by Our Staff From Disp TOKYO — Japan, under heavy pressure from U.S. and British trade interests, proposed Friday to give foreign companies up to a one-third stake in a new merged telecommunications consortium. But the compromise was greeted coolly by the companies.

\$ \$ D.M. F.R. II.L \$\text{Spir.} \text{Spir.} \text{Spir. The new consortium is being formed from two rival groups and would compete with Kokusai Denshin Denwa Co., which now provides the only phone links between Japan and the rest of the world. The United States, embroiled in a separate trade dispute over Ja-pan's aggressive sales of micro-chips, is also angry over what it sees as yet another sign of Japan's refusal to open its markets.

"There is a possibility that Britain may implement the retaliation sures," Foreign Minister Tadashi Kuranari of Japan said Friday in Tokyo. "Japan will make its utmost efforts to have the British abandon the measures."

Dozens of Japanese companies have applied to win a part of the ket. The chief foreign applicants are C&W, with a 20 percent stake jected this proposal. in International Digital Communi-cations Planning Inc., and the Pacific Telesis Group of the United States, with a 10 percent stake.

International Digital is one of two consortiums competing for the business. But Ispanese officials have decided to limit competition to a single merged consormum, drawing protest from loreign com-panies that have said their individnal shares in the merged company was originally offered. would be too small.

companies," four from each main offer.

Foreign Buyers Expected To Get New NTT Shares

Agence France-Press TOKYO — Japan's Finance Ministry will probably ease restrictions on non-Japanese mvestors who want to buy shares in Nippon Telegraph & Tele-phone Corp., the daily Nibon Keizzi said Friday.

Under Japanese law, foreign investors are banned from buying shares in the telecommun cations giant through their own But stock market sources es-

timate that foreign investors currently own about 100,000 of the popular shares in so-called dummy accounts, or 5 percent of the 1.95 million shares listed on the Tokyo Stock Exchange. Another 7.8 million NTT shares are still owned by the government, which plans to transfer these to private owner-

ship in four equal stages. The business newspaper said foreign securities firms would be invited to buy at this fall's sale for their own accounts.

> competing group and with equal shares. They would include one U.S. and one British company.

The merged consortium would also include a larger number of "non-core" companies, which would have smaller shares.

But while the total foreign share would be up to one-third, in accordance with a U.S.-Japan trade accord reached three years ago when Japan was opening its telecomminications market, it would still be carved up among the foreign

Cable & Wireless has already re-

"We are hoping the Japanese companies involved can persuade the other two [C&W and Pacific Telesis] to take part," a telecom-munications ministry official said.

But officials from various companies said that the new proposal might improve foreign participants' share only slightly over earli-er plans — up to 6 or 7 percent, compared with the 3 percent C&W

On Monday, Fumio Watanabe, In a "final mediation plan" for- the Japanese mediator, proposed mally announced Friday, Shunjiro that C&W's stake be raised to 5 Karasawa, the telecommunications percent, which at that time would minister, said the consortium have equaled those of its Japanese would be formed of eight "core partners. C&W also rejected that

ATTENTION U.S. INVESTORS!

Individual Retirement Accounts available from Fidelity in London!

Now U.S. Investors in Europe have a convenient, low-cost way to trade stocks and bonds for their Individual Retirement Accounts. Fidelity Investments Brokerage Services, Ltd. is one of the first U.S. discount brokers to come to London!

Access to European and U.S. markets!

Fidelity's London office can give you easy access to international securities markets. Use our electronic computer network to get the latest financial and market news not only in Western Europe but the U.S. as well. Fidelity representatives will execute trades for your Retirement Account swiftly and efficiently and at significant commissions savings compared to full-cost brokers.

Fidelity service and educational resources!

If you currently own any of Fidelity's 65 mutual funds, you can call or come in to make deposits or switch among your investments. Or take advantage of Fidelity's

educational resources by calling or writing for your free copy of the best-selling Price-Waterbouse Tax Guide. This timely guide for how tax reform may affect you is just one of the services available in addition to Fidelity's investment products.

Call, write or stop by today!

Let Fidelity bring stateside investing to your Retirement Account. Come to the London office at 23 Lovat Lane from Monday to Friday, 9:00 AM to 5:00 PM. Or call 9:00 AM to 9:00 PM toll-free anywhere in the U.K. at 0-800-010-510 (elsewhere in Europe, call 01-283-4595).

Tables include the nationwide prices up to the closing on Wall Street and do not reflect late trades els **NYSE Prices Rocket to Record**

NEW YORK — Prices on the New York Stock Exchange rocketed to their biggest point gain ever Friday, as a buying frenzy in heavy trading sent the Dow Jones industrial average surging by nearly 70 points.

The Dow's record move of 69.89 points, drivn by bargain-hunting investors with a surplus of cash, surpassed the 54.14 point advance on Feb. 17. The percentage gain of 3.01 percent vas the third largest on record, ahead of a 2.53 ercent rise on March 11, 1986, but behind the .90 percent jump of Aug. 17, 1982, and the 4.25 ercent climb on Nov. 3, 1982.

Friday's unprecedented, broad-based ad-ance to 2,390.34 followed a 4.40 point rise on

Gainers pounded losers by a 3-1 ratio, and olume rose to 214.68 million from 182.95 million Thursday.

The NYSE composite index also closed 3.44 oint higher at 170.20, and prices rose in active rading of American Stock Exchange issues. The market strengthened early in what some

analysts characterized as a reflex reaction to its sharp drop at the end of March. But buying accelerated in the afternoon.

"It shows how much money is still on the sidelines," said Martin Kronner, manager of listed trading at Jefferies & Co. "The correction may not be completely over, but it appears the and NWA, parent of Northwest Airlines, all market is now moving to higher levels and will trade there for a while."

Joseph Barthei, director of technical strategy at Butcher & Singer Inc. of Philadelphia, called

the rise "a reflex rally" following the self-off at

149,04 204,48 140,41 75,77 157,22

the end of the first quarter.

Mr. Barthel said he anticipated one more day-long pullback to about the 2,280 level on the Dow some time next week, followed by a strong rally over the next 60 days that will see the blue chip barometer as high as 2,500 or 2,600.

"We have not yet seen the lows on the popular averages," he said. "They'll probably bottom out next week. But the strong stocks have already begun their recovery process."

Seoul Will Denationalize 31 Banks, Corporations

SEOUL — The government has decided to turn 31 banks and corporations under its control into private companies on a gradual basis, the Economic Planning Board has announced.

Companies to be immediately affected by the decision include Korea Electric Power Corp., the Korea Development Bank, Korea Exchange Bank and Pohang Iron & Steel Co., officials

said Thursday.

They said the 31 businesses were chosen from among the 101 that are controlled by the gov-

BUSINESS ROUNDUP

IBM's New Lineup Leaves the Competition Relieved

By Andrew Pollack
New York Times Service
SAN FRANCISCO — The International Business Machines Corp.'s competitors in the personal computer industry have breathed a slight sigh of relief.

It is not that the new IBM machines unveiled Thursday are unimpressive — indeed they are extremely impressive technologically. And they are sure to hurt virtually all of IBM's competitors, analysts said, especially companies that make IBM-compatible machines. Still, the onslaught was not as bad as rivals

had feared. IBM's machines do not appear as "clone-proof," or as aggressively priced, as some had anticipated. And it will take at least a year for all the benefits of the new technology

to reach the market, giving rivals time to adjust.
"People who were expecting clone killers were disappointed," said Richard A. Shaffer. editor of the Technologic Computer Letter. "IBM has not rolled over and crushed the

For example, the lowest-priced of the new IBM Personal System/2 machines costs \$1,695. The clones range from \$1,000 to \$1,500. John V. Roach, chairman of Tandy Corp. which makes low-cost compatibles, said, "if

there's any surprise as far as we were con-cerned, it wasn't quite as closed, as proprietary, as some of the advanced billing had led us to

Wall Street seemed to agree with these assessments, especially since the new machines will not be delivered until 1988. IBM's stock fell more than \$3 Thursday before recovering to close up 75 cents at \$150.875 on the New York Stock Exchange. Apple Computer Inc. closed \$2.75 higher at \$69.50 on the over-the-counter market, and other competitors also gained.

Suppliers of components, such as chips and disk drives, will suffer because the new machines use mainly IBM's own components. Makers of add-on circuit boards, such as AST Research Inc. of Irvine, California, will also be hurt. Much of this market has consisted

of selling extra memory or enhanced graphics capability that the new IBM machines include. Still, these companies will not be shut out totally, as IBM will release specifications so companies can make other add-on boards.

Apple also stands to suffer because IBM's new machines will provide many features that have made Apple's Macintosh line attractive for corporate customers. IBM's new machines include a graphical screen display like the Macintosh. And IBM introduced laser printers and software for desktop publishing, a field Apple

Still, analysts do not feel Apple's recent mo-mentum will be slowed much, because the Macintosh is expanding to other uses besides desk-

The companies with potentially the most to lose, however, are the makers of IBM-compan-ble machines. These range from several Asian companies that assemble inexpensive clones to companies such as the Compaq Computer

CGE, Looking to Denationalization, Plans 3-for-1 Split, New Share Issue

PARIS - Compagnie Générale d'Electricité, the telecommunications and engineering group, has announced plans for a 3-for-1 split of existing stock, to 28 million, in preparation for its denationalization

According to press reports, the company is also planning to issue 19 million to 25 million new shares to raise 5 billion to 7 billion francs (\$833 million to \$1.1 billion).

CGE said it proposed to raise the face value of its existing shares from 100 francs to 120 francs and then split each into three shares

with a nominal value of 40 francs each. The government holds 87.5

percent of the shares, with the rest held by three banks.

Alcatel has agreed to inject 14 pesetas in subsidies for research MADRID — Alcatel NV, the billion pesetas (\$109.6 million) in and development, fresh capital into Standard over the

The cost of voluntary redundancies and early retirements, estimated at 50 billion pesetas, will be shared equally by Alcatel and the

Ministry of Labor. Mr. González said Telefonica had agreed to increase its purchases from Standard.

Alcatel will sell Marconi to one of three bidders chosen by the industry Ministry, Mr. González

L.M. Ericsson of Sweden, Siemens AG of West Germany and APT, a joint venture of American Telephone & Telegraph Co. and Philips NV of the Netherlands, are

reported to have made offers. Sources said Alcatel was initially reluctant to sell because it did not want the bidders to gain either a foothold in or a larger share of

Montreal Bank Converts Loans

NEW YORK -- The Bank of Montreal says it will convert \$100 million in loans to Brazil into an equity investment in the country, the first Western bank to take such an action.

Unlike debt-equity swaps arranged by some nations, the Bank of Montreal intends to sell its dollar-denominated debt at full value in exchange for Brazilian currency, which would then be put into Brazilian assets.

In making the announce-ment, the Bank of Montreal chairman, William Mulholland, also said he was optimistic about negotiations between Brazil and its commercial bank creditors. The bank has \$1.1 billion of loans to Brazil

Chemical Firms Pessimistic

Christopher Lehmann-Haupt

LLAN BLOOM fools you in his remarkable Anew book, The Closing of the American Mind," which hits with the approximate force and effect of what electric-shock therapy must be like. He begins by describing contemporary college stu-dents — or at least the ones he has taught and observed at such schools as Yale, Cornell, Amherst and the University of Chicago, where he now teaches - and he finds these students wanting and symptomatic of what's wrong with American society today.

They don't read the classics. They get their infor-

mation from movies and drug out on rock music. They lack passion and commitment and the capacity to love. They are confused, and the universities they seek help from merely reflect their confusion. The problem, Bloom asserts, is the relativity of truth in the scademic mind today. "Openness — and the

relativism that makes it the only plausible stance in the face of various claims to truth and various ways of life and kinds of human beings — is the great insight of our times," he writes. But this openness has had the paradoxical effect of closing the Ameri-

So the reader is bound to think that this is a traditionalist speaking - after all, most of his previous books have been translations of Plato and uszczu - and that what he is going to insist upon is a return to traditional values. Ho hum and yawn. But then, in a critique of feminist demands, he writes: "I am not arguing here that the old family arrangements were good or that we should or could go back to them. I am only insisting that we not cloud our vision to such an extent that we believe that there are viable substitutes for them just because we want or need them.

This turns out to anticipate the larger point of his book. For what he goes on to argue is not that absolute values can or should prevail over relative ones. We lost that possibility when Friedrich Nietzsche came upon the scene, "arguing with unparalleled clarity and vigor that if we take 'historical sciousness' seriously, there cannot be objectivity, that scholarship as we know it is simply a

Solution to Last Week's Puzzi

delusion, and a dangerous one, for objectivity undermines subjectivity."

102 Widow of

instead, Bloom insists, certain values should be udged superior to others, but we can only discover them through the kind of liberal education that was dismantled in the American university during the

Then, in the extraordinary central section of his book, called "Nihilism, American Style," he analyzes how that dismantling came about through the conquest of American thought by a corrupted version of German philosophy. This popularization of German philosophy in the United States is of peculiar interest to me," he writes, "because I have watched it occur during my own intellectual life-time, and I feel 2 little like someone who knew Napoleon when he was six."

No summary would do justice to Bloom's anatomy of trivialization whereby Nietzsche's description of revolutionary violence became ultimately reduced to Bobby Darin singing "Mack the Knife." Its cogency can best be suggested by the anthor's conclusion that the gaping void behind our current babble about morality, happiness and the way we ought to live, would instantly be revealed if only we could forbid the use of such shopworn expressions as "lifestyle," "values," "ideology," and "charisma," all of which had their sources in serious and

It should be evident by now that this book is going to make a lot of people mad — feminists, scientists, black-power advocates and champions of relevance. And indeed it is probably vulnerable to charges of elitism, antiquarianism, exaggerated sub-jectivity and skewed generalization from the partic

Yet even to the degree that "The Closing of the American Mind" may be reactionary, it is valuable alone as a Nietzschean exercise in becoming, in the sense that, as the author puts it, "what is particular and emergent is all that counts historically and culturally." And what an exercise it is, It commands one's attention and concentrates one's mind more effectively than any other book I can think of in the

In AL East, Pitching-Poor Indians May Surprise

NEW YORK - The American East, once the most brutal eagne test once the man was its

lot of good ones.

"Every club has its Achilles' heal," said the New York Yankees

star, Don Mattingly. Most AL East teams will shoot emselves in the foot because of

patching a 24-5 loss in his major-league dealso acquired Charles Hudson from
a 24-5 loss in his major-league debut, recovered to go 5-2, Ken
on doesn't have Roger Clemens,
AL Most Valuable Player and Cy
and reliever-turned-starter Scott

Cord 46 saves) returns, and un-Young wanter, in camp. Toronto's Time Stieb and Detroit's Dan-Petry are coming back from injuries and off-years.

The Yankees, waiting for Rick Rhoden's tib muscles to heal, will start Tommy John in the second e of the season. Managers say their pitching

plans are wide open. (Read: They're hoping for a small mir-

No one is hoping more than the Gereland Indians. They scored more runs than anyone last season, enough to get over 500 for the first time since 1979.

Still, the worst pitching in the majors left them 111/2 games behind. in the last 30 years, no team or the has taken as much abuse as sland. But, the joke might be on everyone else in 1987. "You're only as good as the guys

around you, and right now I've got a great supporting cast," said Joe Carter, who led the majors with 121 nins batted in last season.

Can Cleveland's pitching hold mp? It may not be great or even good, but it might be enough. In 1987, let's say Cleveland, New York, Toronto, Boston, Detroit, Miwankee and Baltimore.

Cleveland Indians the ninth time in major-league his-agent pitcher tory a team has jumped from 100 with Detroit es to over 500 in one year. rms, 29 stolen bases) and 24-year-

103 games) are impact players. Gehrig and Mickey Mantle. Brook Jacoby, Mel Hall, Tony Berpayers. Cening and Mickey Mantie.

Dive Winfield drove in at least young Kelly Gruber and Manny payard and Andre Thornton all hit 100 runs for the fifth straight year. Lee in the infield.

Jimmy Key (14-11) is the surest

32.5

ranco hit 306.

The Indians needed a catcher so bases) saw their averages drop to career lows. Mike Pagliarnio hit only 238 but had 28 homers. Gary devision in baseball, could have its best-nice ever this season because there are no killer teams—just a some pop at the plate and help in shoring up Cleveland's 157 errors,

(16-12) and 48-year-old Phil cilio Guante from Pittsburgh for Niekro (11-11) can throw forever. a 24-5 loss in his major-league debut, recovered to go 5-2. Ken Schrom (14-7 despite a 4.54 ERA)

and reliever-turned-every Schrom production of the second reliever-turned-every schrom recovered to go 5-2. Ken Dave Righetti (major-league recove

Ward (.316, 51 RBI in 105 games) signed as a free agent. Rhoden (15-12, 2.84 ERA) may

cond-most in the majors. be the needed ace. They got him Knucklehaliers Tom Candiotti and pitchers Pat Clements and Cepitchers Doug Drabek, Brian Fish-

Henderson (263, 28 HR, 87 stolen starter while Stieb (7-12) battles bases) saw their averages drop to elbow pain. Submariner Mark career lows. Mike Pagliarulo hit Eichhorn (14-6, 10 saves, 1.72 ERA) came from nowhere, Boston Red Sox

The Red Sox were one strike away from winning the World Series last October. That may be as close as Boston gets for a long time. Without holdout Clemens (24-4,

2.48 ERA), Boston is a 500 team at best. The Red Sox are expecting to get Rich Gedman, their unsigned free agent catcher, on May 1. Tom Seaver is not coming back.

The Red Sox will suffer if Roger Clemens continues his holdout for more money.

Bailes (10-10) have to pitch well, as does stopper Emie Camacho (20 saves, 4.08 ERA).

New York Yanks Like the Indians, New York was A roster full of hitters enabled the indians to improve from 60-102 why the Yankees left Jack Mornis in 1985 to 84-78 last season, only agent pitcher eventually re-signed

Mattingly (352, 31 HR, 113 Carter, at age 27, (.302, 29 home RBI) may be one of the best Yankees ever -his numbers after three old Cory Snyder (24 HR, 69 RBI in full seasons are better than Lou

expected on May 1. Toronto Blue Javs

The Blue Jays have the best outfield in baseball, but like everyone else, they haven't got the pitching.

Jesse Barfield, the right fielder, led the majors with 40 home runs and topped the league with 20 as-sists. George Bell batted .309 with homers. Each had 108 RBI. Lloyd Moseby, the center fielder, had 21 homers and 86 RBL

Shortstop Tony Fernandez (310, 65 RBL, 25 SB) will be joined by

signed free agent Ron Guidry (9- World Series hero, is coming back 12, 3.98 ERA and injured) is from a groin injury. Dennis (Oil from a groin injury. Dennis (Oil Can) Boyd (16-10) is around, too.

Wade Boggs (.357, .453 on-base Manager John McNamara will probably keep him at leadoff. Jim Rice (.324, 20 HR, 110 HR) choked up on the bat and hit the ball toward right field with success. Everyone got to see Bill Buckner (102 RBI) and Calvin Schiraldi (4-2, nine saves, 1.41 ERA) in the post- Davis, can help. Detroit Tigers

Morris is back, but Lance Parrish is gone. So, too, are the Tigers'

Morris (21-8), who has won more

er, is Detroit's only proven starter. The Tigers need big years from Walt Terrell (15-12) and Frank Tanana (12-9). Willie Hernandez had 24 saves

despite a 3.55 ERA, and the Tigers traded young pitchers Randy O'N-eal and Chuck Cary to Atlanta for part-time DH Terry Harper.

Without Parrish (22 HR, 62 RBI), Detroit is a mish-mash behind the plate, with Mike Heath, Dwight Lowry, Matt Nokes and Orlando Mercado competing. Parrith's departure also leaves a void in the cleanup slot that Alan Tram-mell (277, 21 HR, 75 RBI) tries to

Kirk Gibson (28 HR, 86 RBI) and Lou Whitaker (20 HR, 73 RBI) are solid.

Milwankee Brewers The Brewers are young and slow-ly are getting better. In the AL East, though, significant improve-

ment may take awhile. Teddy Higuera (20-11, 2.79 ERA) needs support from 22-yearold Juan Nieves (11-12) or anyone else. The Brewers traded Tim Leary, a starter, to Los Angeles for Greg Brock (16 HR, 52 RBI).

Robin Yount (.312) is productive wherever he plays. So are the short-stop Ernest Riles and the second man Jim Gantner, but both suffered off-season injuries.

Baltimore Orioles

The Orioles, once the proude and best-run team in baseball, hit bottom in 1986 when they finished last for the first time since the sadsack St. Louis Browns moved to Raltimore in 1954

The club continued an unproductive pattern of signing free agents by taking Ray Knight, the World Series MVP. But it went back to basics by hiring Cal Ripken everage) wants to bat third, but Sr. to replace Earl Weaver, who may have retired for good.

Ripken has his son, Cal Jr. (282, 25 HR, 81) and Eddie Murray (305, 17 HR, 84 RBI), and a lot of question marks. Maybe Knight, Rick Burleson and Terry Kennedy, acquired from San Diego for Storm

The Orioles will try to squeeze one more year out of Scott McGreor (11-15) and Mike Flanagan (7-11). Mike Boddicker (14-12) can be etter but counting on Ken Dixon (11-13) may be a mistake.

Milan Club Wins European Title

Tracer basketball club of Milan won the European Champions Cup over Maccabi Tel Aviv, 71-69, in Lausanne, Switzerland. Bob McAdoo, far right, the former NBA star, scored 15 of his 21 points in the second half for Tracer, which was led by Roberto Premier's 23. The Israelis missed a long shot at the buzzer.

Gooden Could Be Out A Month, or All Year

NEW YORK - The New York Mets say Dwight Gooden could be out for a month or two, or all year. Gooden, 22, checked into the Smithers Alcoholism and Treat-ment Center on Thursday to begin treatment for cocaine use. Bob Ojeda will replace him as starting

pitcher on Opening Day against Pittsburgh on Tuesday. The average rehabilitation period at Smithers is 28 days, according

New York's fashionable East Side. The Meis general manager, Frank Cashen, said his "gut feeling" was that Gooden would miss at least two months of the season. The team's vice president for baseball operations, Joe McIlvaine, said: "He could be gone 30 days or

The Smithers center, affiliated with St. Luke's-Roosevelt Hospital, is a 43-bed facility where abusers of alcohol and drugs receive counseling and therapy in a closed setting. There is indoor physical exercise and supervised outdoor exercise in Central Park.

Gooden was placed on the 15-day disabled list Wednesday, the same day the Mets announced that a voluntary drug test taken by their star pitcher revealed cocaine use. Gooden will continue to draw his \$1.5 million salary.

Mollvaine said that when team

officials called Gooden in Wednesday, "his first response was, "I swear I don't have a problem.' Then, later, he said he'd tried it once, maybe once or twice.

"I looked him in the eye and strokes back at 70, asked, 'Did you ever go to the mound under the influence?' And he looked back and said: 'Never.'

Playing in steady winds of 20 mph (32 kph) with heavier gusts, Chen made five birdies and a bogsy he looked back and said: 'Never.' McIlvaine said that while he in his morning round over the didn't know whether Gooden had 6,854-yard (6,246-meter) Forest used drugs last season, "I suspect it Oaks course. Maltbie recorded a

NBA Moves To Expand To Charlotte, **Minneapolis**

By Sam Goldaper
New York Times Service
NEW YORK — In a surprise move, the National Basketball Association's expansion committee has recommended Charlotte. North Carolina, as its first choice when the league begins its threeteam expansion process with the 1988-89 season.

The five-man committee also recommended Thursday to the NBA's board of governors that Minneapolis be admitted for the 1989-90 season and either Miami or Orlando be accepted from among three Florida applicants.

It suggested that choosing between Orlando and Miami and the timetable for the admission be deferred until the annual owners meeting in October. The board will vote on the recommendations on

April 22. "We felt further study needed to be done before choosing between Miami and Orlando," said Richard Bloch, owner of the Phoenix Suns and chairman of the expansion

Toronto, St. Petersburg, Florida, and Anaheim, California, had also posted the required \$100,000 for xpansion consideration.

Approval from three-quarters of the members of the board of governors, which is made up of one representative from each team, is required for admission. The payment

of \$32.3 million is also requ George Shinn, one of the four Charlotte owners, said he thought the strong points for the selection of Charlotte were its new 23,500seat arena and that it was "in the heart of college basketball country and in the middle of the Atlantic Coast Conference." Shinn noted as well that there was no competition from any other major league teams. Minneapolis, whose Lakers fran-

chise moved to Los Angeles in 1960, had been considered the favorite for early admission to the NBA. But it apparently slipped a notch because of its uncertain playing facilities. A new downtown basketball arena is in the planning stages and is to be completed by September 1989 at the earliest.

68s by Chen, Maltbie Lead Greensboro Golf

GREENSBORO, North Carolina - T. C. Chen of Taiwan and Roger Maltbie shot four-under-par 68s in the cold and wind Thursday to share the first-round lead in the Greater Greensboro golf tournament. Seven players stood two

was more than once or twice this bogey-free, four-birdie round to (NYT, AP) draw even with him late in the day.

After a Fat, Unhappy '86 Season, Royals Ready to Rebound in West

willie Wilson (269, 34 stolen bases) is still in center field. Tartabus (270, 25 HR, 96 RBI as a podesic) was acquired from Scattle with McCaskill (17-10), 33-year-old John Candelaria (10-2) and 42-year-old Don Sutton (15-11). Don-year-old Don Sutton (15-11). Don-year-old Don Sutton (15-11).

that, as well as the staph infection that slowed him in the second half and put him out of the playoff loss runs, while George Hendrick, Rup-pert Jones and the rookies Devon White and Mark Ryal compete for

Bobby Valentine, the manager, and Tom Grieve, the general manager, hoped a youth-dominated would work. Texas pitchers led the mound, would work. Texas pitchers led the majors in walks and wild pitches, a sign of inexperience, but the positive results were overwhelming.

The Rangers went from 62-99 and severnth place to 87-75 and second. Only 28 teams in history have

Reggie Jackson is home again.
It's back-to-tradition time in Oakland, where the team is officially the Athletics, not the A's.

There is new excitement this spring, but it could be a long summer without any pitching. Canseco (240, 33 HR, 117 RBI)

along with the DH platoon of Jack-son (18 HR, 58 RBI) and Ron Cey (13 HR) can drive in Alfredo Griffin (285, 33 SB) and Carney Lansford (.284, 19 HR, 72 RBI). Pitching, though, is a major problem for the team that tied Kansas City for third place in 1986. Joaquin Andujar (12-7) and Moose Hass (7-2) are hurt. That leaves Dave Stewart, Jose Rijo, Curt Young and Chris Codiroli for the

rotation. Bruce Tanner and Gene Nelson, acquired from the White Sex, will find spots. Seattle Mariners A sign at their spring training site read "Seattle Mariners — 1987

World Champions." That may be the only sign of improvement for the Mariners this year, especially if they keep giving away young play-ers like Tartabull rather than finding a way to pay them.

Scattle traded Tartabull for sportland Golden State

fielder Mike Kingery (258) and young pitcher Steve Shields, and also sent its best reliever, Matt Young, to Los Angeles for Dennis Powell (2-7). Why? Manager Dick Williams may soon lose patience, as might his few

bals) may get a full-time chance. Toronte Pitchers Mark Langston (12-14) and Mike Moore (11-13) need concessions. sistency.
Chicago White Sox

Larry Himes, both in their his than another seasons, say Chicago will get better in time, which may be awhile.

The Taming of a New Age Outlaw

WASHINGTON — A long time ago, back in the '50t and '60s, Dennis Hopper kept wobbling up into fame like a bad skyrocket, shedding flaming chunks and threatening to turn and head straight for the crowd,

Now he is 50, a middle-aged guy who plays golf, drives a Cadil-lac and smokes a lot of cigarettes. He hasn't been drunk for four years, he says, and he hasn't taken drugs for three. He's still a legend, but he has stopped doing what made him legendary.
It's all over. He is no longer an

advance man for The Revolution, as he was after he made "Easy Rider." He is no longer an outlaw genius. Instead, he is working. He still talks very hip, a grieved,

sidelong way of speaking that's full of italics and drawl. He still looks sad, too - the chevron mouth and the slanting eyes and eyebrows. Everything about him is exaggerated: the wide shoulders, the little hips, the gentle gestures - he puts out cigarettes like somebody killing a mosquito very slowly. He's so plaintive he's nearly grotesque.

This was always part of his appeal, right from the beginning, when Hopper was a kid trying to tag along with a whole generation of grieved, tormented geniuses. In Hollywood alone there were Mar- I was the best actor going. And I lon Brando, Montgomery Clift

turtles with their shells torn off.

Now, in 1987, Hopper is making more movies than he ever did when he was veering around Hol-lywood and Taos, New Mexico, believing that he was a genius, too.

In the last two years the work has included "River's Edge," "Black Widow," "Texas Chain-saw Massacre II" and "My Science Project." He was even nominated for an Oscar for his performance as the town drunk in "Hoosiers," though the performance that really stunned people last year was in "Blue Velvet" he played a bellowing psychopath who kills and rapes people while listening to Roy Orbison and sucking on a tank of some unnamed gas, somegeneric insanemaking drug that Hopper thought oxide and amyl nitrate.
Once, the personal life went

with being part of Hopper's gen-eration in Hollywood. "I thought suddenly saw Dean, and I knew I

and James Dean, struggling up the beachhead of 1950s America like wasn't giving line readings. He wasn't giving line readings. He was fully creating out of his imagination and improvising and it was way over my head. And that's when he started telling me to do things. He'd say, 'Look, just do it, don't show it. If you're smoking a cigarette, just smoke the cigarette. don't act like you're smoking a

> The idea was to be real up there on the screen, because art was supposed to show us reality, strip away our self-delusion and hypocrisy. It was a lovely dream. In a story he told Life magazine once, Hopper put this dream together with the legend of a small-town boy with big ambitions.
> "When I was little, I lived on a

farm near Dodge City, Kansas. Wheat fields all around. No neighbors, no other kids. Just a train that came through once a day. I used to spend hours wondering where it came from and where it went to. Then when I was about 5 my grandmother put some eggs in her apron and we walked five miles to town and she of him. Hopper told Cohn to

sold the eggs and took me to my first movie. And right away it hit me — the places I was seeing on the screen were the places the train came from and went to. The world on the screen was the real have been collected in a new book world, and I felt as if my heart called "Out of the Sixties" (Twelwould explode I wanted so much to be a part of it."

Hopper's acting career began after his family moved to San Diego when he was 13, and he got to Shakespeare in the Old Globe Theater there. When he was 18, he played an epileptic on the televi-sion show "Medic." The next day, seven studios were after him. At Columbia Pictures, Harry Cohn, the mogul, told Hopper they'd have to train the Shakespeare out

Hopper was told he'd never work in Hollywood again. He went to New York. He took

photographs for Vogue and other magazines - photographs that have been collected in a new book verrees Press). He studied acting with Lee Strasberg. Then he directed and co-starred in a bikerdrug movie, "Easy Rider," which became a cinematic anthem for the disaffected middle-class youth of the late '60s. It cost \$340,000 to make and it so far has grossed \$50 million. That kind of box-office was not only enough to bankroll Hopper for years, it also punched his genius ticket with the money people. Universal gave him \$1 million to make whatever movie

Movie." It won a prize at the Ven-There, he had a small part be- ice Film Festival, but Hollywood hind James Dean in "Rebel With-out a Cause." Then he was with it, and it died. He moved to Taos, the New

Age omphalos, and he worked on pire-building rancher. He was on becoming a mad saint of the counterculture, a legend. It turned out that this was what he was a genius

Henry Hathaway. Hathaway had He was married to Brooke Hayto shoot the scene 86 times before ward. He lived in the house that Hopper stopped arguing, and D.H. Lawrence had lived in. He played the outlaw back when we thought you had to be an outlaw to be pure and a genius. His drug use was famous.

> He was married to Michelle Phillips of the Mamas and the Papas for eight days. He was said to never read books; to have pulled a knife on a Mafia don; to have sculpted something called "the perpetual erection machine."

He was married to Daria Halprin, who starred in Antonioni's "Zabriskie Point." He was said to have gone berserk in seven hours of footage that never made it into "Easy Rider." Somebody made a documentary film about him, called "The American Dreamer," in which he did the obligatory unde scenes that demonstrated earthy honesty back then. He'd been in what his first wife called "the abyss." He'd also been the crazed photographer in "Apoca-lypse Now" and a murderer in Wim Wenders's "The American Friend," among other roles. But mostly he'd been Dennis Hopper, the legend. It culminated with press reports of him going nuts in Mexico while making a movie called "Jungle Fever" — ending up in a couple of mental wards, and then Alcoholics Anonymous.

Now he's sitting in a hotel room in a coat and tie and telling anyone who asks that he's been off alcohol and drugs for years. " I'm gonna live in Los Angeles the rest of my life. The Revolution never

happened, man." Was genius worth pursuing? Does it kill you?

"I like the concept of it. I think everything kills you. This ciga-rette's gonna kill me if I don't stop smoking. You know, I've stopped everything but this. My last friend

Stolen Krizia Collection Is Recovered in Milan

Milan police Friday reported recovering the \$615,000 autumnwinter collection of Italian fashion designer Krizia, which was stolen last month. The 1,600 garments, presented at the Milan fashion. shows in March; were taken from Krizia's showroom. Police said the theft appeared to be the work of professionals hired by black market dealers who probably planned to flood the market with cheap imitations of the designs. The items coats, dresses, lingerie, casual wear and knitwear - were found in a warehouse outside Milan.

leader Martin Luther King Jr. has announced plans to publish a 12plaining his philosophy of nonvio-lence. With the publication of the King papers, we will have an in-valuable source of information about the civil rights movement that revolutionized American society," Coretta Scott King said Thursday in Philadelphia. "The published King papers will also help illuminate the philosophy and methods of nonviolence, as taught by one of its leading practitioners." King said the papers, to be published by the University of California Press, will include her husband's early letters and recordings, articles, books, speeches and correspondence. The 15-year project is sponsored by the Atlanta-based Martin Luther King Jr. Center for Nonviolent Social Change in association with Stanford University. Clayborne Carson, a Stanford historian who will edit the volumes. said the first would be published in

Churchill, drove himself from the court after lodging an appeal of the driving ban. Defense lawyers said he needed to drive to get to a drive rehabilitation clinic and to operate tractors on the family's 13,000 acre estate, Blenheim. The family is wealthy, but you cannot have a chauffeur to drive your tractor for you," said lawyer David Whitehouse. He added that Blandford was making a steady recovery from ining the heroin addiction
